The TPK bee project

In April, three beehives were set up on the TPK premises. With spring-like temperatures and the friendly support of the Bienenzüchterverein Karlsruhe e.V. (BZV-KA), the TPK bee project can now get off to a flying start.

Innovation prize of the state of Baden-Württemberg

The Baden-Württemberg Ministry of Economics, Labor and Tourism is again announcing the competition for the renowned Dr. Rudolf Eberle Prize (innovation prize) this year. Outstanding achievements by medium-sized companies in the development or application of new technologies are honored.

The TPK bee project

There have been three bee colonies on the Technology Park site since April. The project could finally officially start after weeks of planning. The Bienenzüchterverein Karlsruhe e.V. (BZV-KA) will oversee the project throughout and take care of the animals at regular intervals with interested parties who have already registered in advance. All the activities of a "hobby beekeeper", such as swarm control, offshoot formation, Varroa treatment, etc. will be taken into action.

The aim of the project should be to experience nature up close and personal, to make a meaningful contribution to environmental protection and to promote the pollination of flowers and grasses.

Keeping bee colonies means taking responsibility for animals. This involves investing in care and time in order to obtain a satisfactory result and to meet the demand for an intact environment.

Ultimately, the honey produced here is distributed to the companies involved in the project, the TPK and the PTKA, and can be given away as a popular giveaway, for example.

Innovation prize of the state of Baden-Württemberg

The tender by the Baden-Württemberg Ministry of Economics, Labor and Tourism is aimed at medium-sized companies whose special innovative achievements are to be awarded the innovation prize, the Dr. Rudolf Eberle Prize. All small and medium-sized companies from industry, trade and technological services from Baden-Württemberg with a maximum of 500 employees and an annual turnover of up to 100 million euros can take part. Interested companies can submit their applications until May 31, 2023. You can find the registration link and further information on the Baden-Württemberg Innovation Award at:
