A well-kept appearance and upscale furnishings in our buildings are important to us - which is why we are constantly modernising.

## News

### Calisthenics facility in the Traugott Bender Sports Park

After the opening of the calisthenics facility, we offered an exclusive calisthenics workshop to the companies located in the TPK in cooperation with the SSC Karlsruhe. Due to the great interest and positive feedback after the workshop, there will be a second workshop.

### KIT Science Week: Karlsruhe all about AI

Our long-standing cooperation partner and tenant in the park, the KIT, has launched a new event format in Karlsruhe with the Science Week. KIT Science Week will celebrate its premiere in Karlsruhe from the 5<sup>th</sup> to the 10<sup>th</sup> of October 2021.

## What else...

### Announcement first aid courses

This year's first aid courses will take place on four days in October.

## Modernisation work at the TPK

A well-kept appearance and upscale furnishings in our buildings are important to us - which is why we are constantly modernising. Below we like to give you an insight into our current measures.

The largest project at the moment is the renovation of the facade of the Emmy-Noether-Straße 9, which can hardly be overlooked when entering the TPK. Here we are renewing the thermal insulation, the window sills and the plaster.

A measure that is currently in the final stages of completion is the toilet renovation at Albert-Nestler-Straße 7-13, 24 and 26 and Emmy-Noether-Straße 10, where we have replaced the sanitary items with new elements and installed an automatic flushing system for the urinals.

Another measure that has recently been started is the energetic roof renovation of the Albert-Nestler-Straße 7, 9, 11 and 13 and Emmy-Noether-Straße 10. We are renewing the thermal insulation, the waterproofing and the roof greening. In the course of this work, the top roof surface will also receive a photovoltaic system with 94 KWP. The completion depends on the weather but is planned for the end of this year so far.

## Calisthenics facility in the Traugott Bender Sports Park

In our last TPK newsletter, we already reported on the construction of the calisthenics facility in the Traugott Bender Sports Park.

As long-standing partner of the SSC Karlsruhe and with a view to an exclusive cooperation from which especially our tenants in the park will benefit, we have provided financial support for the construction of the facility.

The calisthenics facility is accessible free of charge to both members and non-members of the SSC from the age of 14.

Due to the proximity of the facility to the TPK and the cooperation

with SSC Karlsruhe, we offered a calisthenics workshop exclusively for employees of companies located in the TPK on Thursday, the 29<sup>th</sup> of July 2021. The workshop was led by an experienced SSC fitness and functional trainer and sports therapist.

Because of great interest in the Calisthenics workshop and the positive feedback afterwards, we have arranged a date for another workshop with the SSC Karlsruhe. This will take place on Thursday, the 19<sup>th</sup> of August 2021.

## KIT Science Week: Karlsruhe all about AI

The KIT Science Week celebrates its premiere. Under the motto "Humans at the centre of learning systems", the event week brings together science, business, politics and society. For one week, from the 5<sup>th</sup> to the 10<sup>th</sup> of October 2021, researchers from all over the world will immerse themselves in the world of artificial intelligence, or AI for short, together with actors from politics and business as well as citizens from the city and the region. The new event format of the Karlsruhe Institute of Technology (KIT), our long-standing cooperation partner and tenant in the park, offers diverse access to AI and opens up spaces for discourse. KIT wants to take new impulses from the Science Week for its own research agenda. Further information, video and programme of the KIT Science Week at: [www.scienceweek.kit.edu](http://www.scienceweek.kit.edu).

## Announcement first aid courses

This year we will again offer first aid courses in our conference room "New York". The basic course with defibrillator will take place on Tuesday, the 19<sup>th</sup> of October 2021 and on Wednesday, the 27<sup>th</sup> of October 2021, both from 8:30 am to 5 pm. The advanced first aid course with defibrillator will take place on Wednesday, the 20<sup>th</sup> of October 2021 and on Thursday, the 28<sup>th</sup> of October 2021, both from 8:30 am to 5 pm. The four dates can be attended independently of each other, a course runs for one day each. Registrations please the latest by Tuesday, the 28<sup>th</sup> of September 2021, by email to [knoerr@techpark.de](mailto:knoerr@techpark.de).

Do you also have interesting reports and news about your company in the Technology Park Karlsruhe? Then please send them to us by email in German and English. If you would like to subscribe to the newsletter or no longer wish to receive it in the future, please let us know via [tpk@techpark.de](mailto:tpk@techpark.de).
